

Ammar Yaser Babaset

Software Engineering Student — Software Development Intern

+966 53 251 8449 babaset99@gmail.com github.com/ProgAm1 [LinkedIn](#) Saudi Arabia

PROFESSIONAL SUMMARY

Software Engineering student with hands-on experience in web development, computer vision, and software engineering projects using Next.js, React, TypeScript, Python, and Java. Strong academic record with a GPA of 4.93/5.0. Seeking a software engineering internship to apply technical, analytical, and problem-solving skills in real-world environments.

SKILLS

- **Programming:** Python, Java, C++, SQL, Dart
- **Web:** HTML, CSS, JavaScript, TypeScript
- **Frameworks & Libraries:** React, Next.js, Tailwind CSS, Flutter
- **Computer Vision:** OpenCV, MediaPipe, Image Processing
- **Tools & Platforms:** Git, Linux, Node.js, VS Code
- **Languages:** Arabic, English

PROJECTS

BracketClick — Python, OpenCV, MediaPipe, JavaScript

- Developed a computer vision-based photo booth for touchless real-time camera capture using hand gesture recognition.
- Integrated MediaPipe and OpenCV for live hand tracking and bracket gesture detection from webcam input.
- Optimized frame processing and interaction flow to improve responsiveness and usability.

KAUST Bioinformatics Expression Analysis — R, Python

 Paper

- Built Linux-based RNA-seq analysis workflows using Python and R for chromosome 20 gene expression analysis.
- Used bioinformatics tools for preprocessing, quantification, and differential expression analysis of normal and TDP samples.
- Contributed to a research preprint through reproducible pipeline development and technical analysis.

Personal Portfolio Website — Next.js, React, TypeScript

 Portfolio

- Developed a responsive portfolio website to present projects, technical skills, and experience.
- Built a modern, accessible, and reusable user interface using Tailwind CSS.
- Implemented reusable components, interactive UI behavior, and contact form functionality to enhance user experience.

Slide-Mind Flashcard Generator — Java

- Built a Java application that converts PDF lecture slides into quiz-style flashcards using an LLM API.
- Integrated PDF parsing, question generation, and flashcard storage using file I/O.

EXPERIENCE

Project Reviewer — Google Developer Groups

Nov 2025 – Present

- Reviewed student technical projects and provided feedback to improve quality.

Events Committee Co-Lead — Drone Club

Dec 2025 – Jan 2026

- Contributed to running workshops, bootcamps, and club events within the Events Committee.
- Supported event activities and helped ensure smooth execution during sessions.

Website Testing Team Member — Business Incubator

Nov 2025

- Validated website functionality and user flows through manual testing
- Reported bugs and usability issues to improve product quality

Store Manager — Online Store

July 2024 – Jan 2025

- Managed order processing, inventory tracking, and customer request resolution
- Monitored sales metrics and ensured timely order fulfillment

EDUCATION

Bachelor of Software Engineering

Expected Graduation: 2027

University of Jeddah

GPA: 4.93/5.0

Bioinformatics Program

KAUST Academy – 2026

- Completed advanced training in bioinformatics and computational analysis
- Performed gene expression analysis using Python and R
